National Coordinating Unit for VOT Norway

How we work:

- Receive phonecalls on our SOS service and refer to different actors
- Receive reports on problematic cases/issues from different local authorities and NGOs

- Monthly meetings in Reference group
- Monthly meetings in Project group
- Joint 3 days seminars twice a year
- Contact lists and agreement on 24 hour readiness for all members in both groups
- Report to the inter-ministerial commission
- Report to the local coordinating units

National Coordinating Unit for VOT Norway

Tasks:

- ❑ SOS Human Trafficking – hotline service
- ❑ National guidelines for identification of VOT
- ❑ National indicators for VOT
- ❑ National guidelines for information on VOT rights
- ❑ National guidelines for interdisciplinary cooperation in assistance and protection of VOT
- ❑ National system for report and monitoring on VOT
- ❑ National system for voluntary safe return of VOT to home country

- ❑ Assistance and guidance to local actors when needed
- ❑ Speeches in seminars and training of personnel

Arenas where minors are identified as possible VOTs in Norway

- Shoppingmalls and city centres – begging, artistry, sellers, pick pocketers
- Arenas for production, trafficking and sale of drugs
- Prostitution markets – outdoor, indoor, internet
- Housekeeping and nursing
- Car wash
- Brick-laying
- Asylum reception centres

Who report about minors in (risk of) trafficking in Norway

- Asylum reception centres
- Local child welfare authorities
- Outreach work in prostitution
- Outreach work in drug environment
- Shelters for VOTs
- Police
- Lawyers
- Customs and immigration control

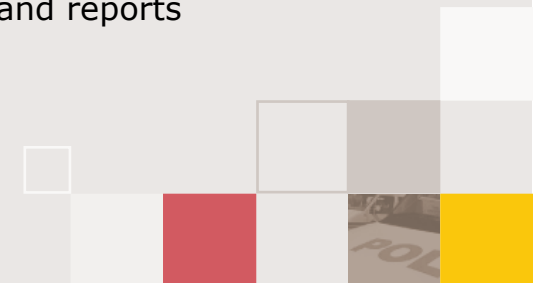

Challenges

- Lack of knowledge and competence on how to identify
 - What are the indicators of TIP?
 - How old is the person?
 - Who are his/hers "guardians"?
 - Tendency to focus on TIP as mainly a problem of migration – what about internal trafficking?

- Lack of knowledge and competence on where to report
 - A great emphasis on professional secrecy
 - Lack of trust in/knowledge of other actors
 - Lack of networks for cooperation
 - Lack of standard procedures
 - Unprofessional solutions – Laziness

- Databases
 - No national register in child welfare authorities
 - No fingerprints of minors under 15
 - Great emphasis on personal secrecy in regulations on databases and reports
